Facts about Domestic Violence/Intimate partner Violence:

- On average, nearly 20 people per minute are physically abused by an intimate partner in the United States. During one year, this equates to more than 10 million women and men.
- 1 in 4 women and 1 in 9 men experience various intimate partner violence and its side effects.
- 34.7% of Hawaii women and 24.1% of Hawaii men experience various forms of intimate partner violence.
- Studies have shown that more Native Hawaiian women experience intimate partner violence than non-Hawaiian women. Results are 20.6% of Native Hawaiian women between 18 to 29 years old report experiencing IPV, compared to 13.3% of non-Hawaiian women of the same age range.
