QUALITY AND EDUCATIONAL EXCELLENCE

Postsecondary culinary arts programs accredited by the ACFFAC have met or exceeded published standards and demonstrate a commitment to providing quality curriculum, faculty, instructional resources, support staff, and organizational structure. Programs that earn approval from the ACFFAC show a commitment to excellence to both current and prospective students, faculty members, and leading employers in the culinary arts industry. These accredited programs distinguish themselves from hundreds of other postsecondary culinary programs in the nation and abroad.

Students who graduate from an ACFFAC accredited associate degree program or from an accredited non degree program and are active ACF members are eligible for ACF certification as either a Certified Culinarian (CC) or a Certified Pastry Culinarian (CPC). Graduated students who utilize this benefit have an advantage when seeking employment, because certification is representative of having the knowledge and skills to be successful. Students attending an ACFFAC accredited program also receive a complimentary subscription through the ACF website to ACF Sizzle, a publication geared exclusively toward enhancing the education of culinary students.

STUDENT CONDUCT AND PRACTICES

Failure to comply with culinary program student conduct and practices guidelines may result in a request by faculty or staff for the student to leave the laboratory, classroom, or dining room setting, coaching/conference, contract record, or dismissal.

Professional Behavior:
The curriculum structure of the culinary program is designed so every class, laboratory assignment, and papers are important learning experiences and ensures that students acquire professional, responsible and accountable behavior. Faculty members will assist and counsel students throughout their progression in the program. However each student is expected to make decisions and will be held accountable and responsible for his/her actions.

Teamwork:
The food service industry depends on teamwork and employs individuals who can work together to accomplish a common goal. Teamwork requires knowledge of each other’s jobs, mutual respect, and accurate communications. In most laboratory classes, you will be expected to work in teams. Your attendance and positive attitude are essential to the success of your team.

Class Preparation and Assignments:
Students must possess required text by the second class meeting. Failure to do so will cause the student to be placed in contract. Students are expected to prepare for class by reading assigned materials and completing written assignments. Active and appropriate participation is expected. Be ready for class by having the right equipment, completed homework, and a positive attitude.

Active Participation requires . . .
- asking appropriate questions
- sharing opinions
- giving others an opportunity to contribute to class discussions

The fundamental expectation of timeliness is a significant and consistent learning outcome within the culinary program. Timely submission of papers is expected in the program, in conjunction with the expectation of timeliness in the profession. Due dates for all class work, papers, etc. either listed in the syllabus or announced in class. Points will be deducted for late papers. All assignments must be turned in prior to the end of the semester.

This does not include extensions mutually agreed upon between the student and faculty member where extenuating circumstances exist. If a student is having difficulty meeting a due date he/she should discuss the matter with the instructor before the assignment is due. All extensions for written work must be submitted by email to the instructor. The student must propose a date and time for completion and keep a record or copy of the request, time, and date. The course instructor will reply within two working days and will accept or deny request.

Persistent or excessive late assignments may result in the student being dropped from the class or culinary program prior to the end of the semester.
Attendance:
Absences or tardiness affect the student’s academic or laboratory performances and may result in a lower grade or in the student being dropped from the culinary program. All absences should be reported to the instructor prior to the start of class. All students will be expected to report any absence by calling and speaking with the instructor personally or by leaving a voice mail message.

A student whose cumulative absences in the semester exceed in number the weekly meetings of the class may be dropped upon recommendation of the instructor.

1. Attending class daily, arriving on time, and staying for the duration are expected.
2. Focus on maintaining good health to minimize sick leave time—eat right, get adequate sleep, and exercise regularly.
3. Tardiness is not permitted in the industry or in this program.
4. It is the student’s responsibility to inform the instructor of anticipated or unavoidable absences.
   a. Inform your instructor by phone (leave a voice mail message if no answer), by email, or in person.
   b. Include a description of the cause of the absence and what is being done to complete all work required to keep current. (In extenuating circumstances only, a student may petition to have an absence excused.)
5. In most laboratory classes, you will be expected to work in teams. Your attendance is essential to the success of your team.
6. Your final course grade will be lowered one letter grade once you have exceeded the following (see individual instructor’s syllabi for attendance policy):
   a. three absences in any course in the Culinary program.
   b. two tardies equal one absence.

Safety and Sanitation Training (MANDATORY ATTENDANCE):
1. Students must participate in safety and sanitation training during the first week of instruction in order to participate in culinary laboratory classes.
2. Students are required to attend scheduled fire safety classes.

Culinary Tools:
1. Culinary tools must be secured in a knife bag. For required items see Uniform and Supply List in this handbook.
2. Other tools may be necessary depending upon individual class requirements.

Here are some reminders about the tools of your profession . . .
- Knives are never used as weapons or toys.
- Always walk with the knife blade facing the floor.
- Always keep knives sharpened.
- Do not borrow someone else’s knives and tools.
- Store knife bag under worktables or in a designated kitchen area.
- Always use your knives for their intended use.

MEDICAL INSURANCE

Although medical insurance is optional, it is highly recommended for all students. Medical bills for those without health insurance are extremely high, and often may cost more than the cost of annual insurance premiums. Students are not employees of the University of Hawai‘i and therefore are not covered by Workman’s Compensation Insurance in case of injury during on- or off-campus culinary laboratory activities.

HEPATITIS A & B VACCINATIONS

Hepatitis A is a serious disease that can make you ill enough that may require hospitalization. This virus is most commonly transmitted from person to person, mostly through fecal contamination, and then hand-to-mouth contact; but it can also be spread through contaminated food and water. After being infected, the infected person is unknowingly contagious for one to two weeks before feeling symptomatic. Infected food handlers can pass the virus to others before even knowing they are ill.

Although you can protect yourself by practicing good hygiene through proper hand washing, you cannot control the hygiene of others. The best protection against Hepatitis A is vaccination.

Kaua‘i Community College strongly recommends that students in the Culinary Arts and Hospitality fields obtain vaccination against Hepatitis A, and also Hepatitis B for those that may be at risk for Hepatitis B.

RISK FACTORS FOR HEPATITIS A
• Is transmitted person to person (fecal-oral), via contaminated food or water.
• Complications include fulminant hepatitis, relapse.

RISK FACTORS FOR HEPATITIS B
• Is transmitted via blood or bloody fluids, sexually, during birth, or through IV drug use.
• Complications include fulminant hepatitis, cirrhosis, cancer, chronic liver disease.

You may obtain hepatitis vaccinations through your private physician. Information is available through the Kaua‘i Community College Wellness Center. A series of three (3) shots is required for full vaccination.

I. Purpose

The purpose of this policy is to establish guidelines relating to the Systemwide Student Conduct Code, including standards for the ways in which members of the University of Hawai‘i (UH) community interact with each other in the pursuit of both academic excellence and social responsibility.

The Systemwide Student Conduct Code is neither a criminal nor a civil code and does not operate like one. UH’s expectations for our fellow community members are for a significantly higher standard of conduct than the bare minimum prescribed by law; conduct that is legal may nevertheless still be unacceptable within the bounds of our UH community.

The policies set forth in this code are intended to serve primarily as an extension of UH’s educational mission -- to guide students in their growth as members of the UH and broader communities.

II. Definitions

A. Registered Independent Organization (RIO) refers to a student organization, association, or club that has been formed to meet special interests of certain groups of students on campus.

B. Reporting Party refers to any person who submits an allegation that a student violated this Student Conduct Code. When a student believes that s/he has been a victim of another student’s misconduct, the student who believes s/he has been a victim will have the same recourse under this Student Conduct Code as are provided to the Reporting Party, even if another member of the UH community submitted the charge.

C. Responding Party refers to any student (defined under this policy) accused of violating this Student Conduct Code.

D. Senior Student Affairs Officer means the campus administrator (i.e., dean or vice chancellor or designee) who is in charge of the division of student affairs, and generally charged by the campus Chancellor to be responsible for the administration of the Student Conduct Code.

E. Student means all persons registered in courses at UH, either full-time or part-time, pursuing undergraduate or graduate studies. In addition, for purposes of this Student Conduct Code only, this Code also applies to: (1) students who have been suspended or dismissed, students who
withdraw after allegedly violating the Student Conduct Code and may return to UH, students who are on a leave of absence from UH, or students who are on medical leave; and (2) persons who (a) have been notified of their admission and (b) have registered or officially participated in orientation or other officially recognized UH activities.¹

F. Student Conduct Administrator means a UH official authorized on a case-by-case basis by the Senior Student Affairs Officer to impose sanctions upon any student(s) found to have violated the Student Conduct Code. The Senior Student Affairs Officer may authorize a Student Conduct Administrator to serve simultaneously as a Student Conduct Administrator and the sole member or one of the members of the Student Conduct Board. The Senior Student Affairs Officer may authorize the same Student Conduct Administrator to impose sanctions in all cases.

G. Student Conduct Board means any person or persons authorized by the Senior Student Affairs Officer to determine whether a student has violated the Student Conduct Code and to recommend sanctions that may be imposed when a rules violation has been committed.

H. UH encompasses any campus or site within the University of Hawai‘i system.

I. UH community member includes any person who is a student, faculty member, UH official or any other person employed by UH. A person’s status in a particular situation shall be determined by the Senior Student Affairs Officer.

J. UH official includes any person employed by UH, performing assigned administrative or professional responsibilities.

K. UH premises include all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by UH (including adjacent streets and sidewalks).

L. The term "shall" is used in the imperative sense.

M. The term "may" is used in the permissive sense.

III. Executive Policy

A. Introduction

1. The purposes of UH are to give thorough instruction, conduct research and disseminate knowledge in and of branches of advanced learning as prescribed by its Board of Regents. UH is committed to ensuring a safe, civil, learning and working environment in which the dignity of every individual is respected. All members of the UH community - students, faculty and staff - share responsibility for its growth and continued welfare.

2. Choosing to join the UH community obligates each student to abide by this code of conduct. As members of the UH community, students accept the responsibility to become fully acquainted with UH’s rules and to comply with UH’s authority. UH expects students to maintain standards of personal integrity that are in harmony with the educational goals of UH; to respect the rights, privileges, and property of others; and to observe national, state, and local laws and University policies and procedures.

3. UH views the disciplinary process as a learning experience which aims to promote growth and understanding of one’s responsibilities and privileges within the UH environment. To this end, the disciplinary process attempts to balance an understanding and knowledge of students and their needs with the needs of the academic community. Pursuit of a college education provides an opportunity for exploration of new ideas, experimentation, self-examination, formation of new relationships, and development of ideals and direction. However, UH does not absolve students from accepting responsibility for their behavior in their pursuit of a college education. Rather, it reaffirms the principle of student freedom that is coupled with an acceptance of responsibility for one’s actions and the consequences of such actions.

B. Student Conduct Code Authority

1. This Student Conduct Code applies at all locations of UH, including any affiliated residence hall.
2. The Student Conduct Administrator shall determine the composition of Student Conduct Boards and Appellate Boards and determine which Student Conduct Board, Student Conduct Administrator and Appellate Board shall be authorized to hear each matter.

3. The Senior Student Affairs Officer shall develop policies for the administration of the student conduct system and procedural rules for the conduct of Student Conduct Board Hearings that are not inconsistent with provisions of the Student Conduct Code.

4. Decisions made by a Student Conduct Board and/or Student Conduct Administrator shall be final, pending the appeal process.

5. At the Student Conduct Board Hearing and for purposes of any appeal, the technical rules of evidence applicable to civil and criminal cases shall not apply.

IV. Proscribed Conduct

A. Jurisdiction of the UH Student Conduct Code

1. On University property; or

2. Outside of University property if:
   a. the conduct was in connection with a University-sponsored program or activity; or
   b. the conduct may have a continuing adverse effect or could create a hostile environment on campus.

The Senior Student Affairs Officer shall decide whether the Student Conduct Code shall be applied to conduct occurring off campus (including but not limited to the use of social media and other electronic forums), on a case-by-case basis, in their sole discretion.

B. Conduct – Rules and Standards

The following are examples of the types of behavior that conflict with the community standards that UH values and expects of students. Engaging in, or attempting to engage in any of these behaviors subjects a student to the disciplinary process and sanctions on each campus.

1. Acts of dishonesty, including but not limited to the following:
   a. Cheating, plagiarism, or other forms of academic dishonesty.
      Cheating is an act of academic dishonesty and includes, but is not limited to: (1) use of any unauthorized assistance in taking quizzes, tests, or examinations; (2) use of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; (3) the acquisition, without permission, of tests or other academic material belonging to a member of the UH faculty, staff or student body; and (4) engaging in any behavior specifically prohibited by a faculty member in the course syllabus or class discussion.

      Plagiarism is also an act of academic dishonesty and includes, but is not limited to, the use, by paraphrase or direct quotation, of the published or unpublished work of another person without full and clear acknowledgement. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.

   b. Furnishing false information to any UH official, faculty member, or office.
   c. Forgery, alteration, or misuse of any UH document, record, or form of identification.

2. Disruption or obstruction of teaching, research, administration, disciplinary proceedings, other UH activities, including its public service functions on or off campus, or of other authorized non-UH activities when the conduct occurs on UH premises. This includes creating noise or other disturbances on campus or in student life areas sufficient to disrupt the normal functioning of campus activities including classroom instruction.

3. Any conduct that threatens or endangers the health or safety of any person including but not limited to, physical abuse, verbal abuse, threats, intimidation, harassment, bullying, coercion,
stalking as defined below. (For any conduct that is sexual or romantic in nature and committed by a current or former partner of an intimate, romantic, or sexual relationship, or is related to an individual’s actual or perceived sex or gender, sexual orientation, gender identity or gender expression, refer to EP 1.204 for detailed information.)

a. Threat is written or verbal conduct that causes a reasonable expectation of injury to the health or safety of any person or damage to any property.

b. Intimidation is implied threats or acts that cause a reasonable fear of harm in another.

c. Bullying and cyberbullying are repeated and/or severe aggressive behaviors that intimidate or intentionally harm or control another person physically or emotionally, and are not protected by freedom of expression.

d. Stalking is two or more acts of unwanted and harassing behavior, directed at a specific person that is sufficiently serious to cause physical, emotional, or psychological fear or to create a hostile, intimidating or abusive environment.

e. Physical abuse is intentionally or recklessly causing physical harm or endangering the health or safety of any person.

f. Verbal abuse is shouting or yelling in a threatening or hostile manner and/or use of abusive or belligerent language.

g. Harassment is sufficiently severe, pervasive (or persistent) and objectively offensive conduct that unreasonably interferes with, limits or denies the ability to participate in or benefit from the University/College’s educational program or activities.

h. Hostile Environment is when unwelcome harassment is sufficiently severe, pervasive (or persistent) and objectively offensive that it unreasonably interferes with, limits or denies the ability to participate in or benefit from the University/College’s educational program or activities.

i. Coercion is intentionally compelling or inducing another person to engage in conduct from which another has a legal right to abstain, or to abstain from conduct in which another has a legal right to engage, by threatening with words or conduct to take some negative action that may impact the other person. In this context, some examples of “negative action” include, but are not limited to: causing bodily injury, causing property damage, physical confinement or restraint, or revealing information that is sought to be concealed.

4. Creation of health and/or safety hazards, e.g., dangerous pranks, hanging out of or climbing from/on/in windows, balconies, roofs.

5. Sex discrimination and/or gender-based violence as defined in EP 1.204.

7. Attempted or actual theft of UH property or the personal property of another individual or entity, including goods, services and other valuable, on or off campus, and/or knowingly maintaining possession of stolen property.

8. Intentional, reckless and/or unauthorized damage to or destruction of UH property or the personal property of another individual or entity.

9. Hazing is an act that endangers the mental or physical health or safety of a student, or which destroys or removes public or private property, for the purpose of initiation, admission into, affiliation with, or as a condition for the continued membership in, a group or organization. The express or implied consent of the victim will not be a defense. Apathy or acquiescence in the presence of hazing is not a neutral act; both are violations of this rule.

10. Failure to comply with any directions of UH officials or law enforcement officers acting in performance of their duties and/or failure to provide identification to these persons when requested to do so.

11. Unauthorized possession, duplication, or use of keys/keycards/security mechanisms to any UH premises or unauthorized entry to or use of UH premises, including trespassing, propping or unauthorized use of doors for entry into or exit from a UH building.

   a. Seeking advice or assistance about a Student Conduct Code or systemwide sanction concern;
   b. Opposing or filing an informal or formal complaint regarding an alleged violation of this policy;
   c. Testifying, assisting, or participating in an investigation or other proceeding related to an alleged violation of this policy.

Adverse actions are actions that would dissuade a reasonable person from making or supporting a complaint under this policy. A retaliation complaint, allegation, or report will be reviewed as a separate offense under this policy; that is, a student can be found responsible for retaliation even if not found to be responsible for the underlying reported Student Conduct Code violation.

Additionally, UH prohibits and does not tolerate retaliation as defined in EP 1.204.

25. Violation of Residence Hall Rules and/or Policies: Violation of residence hall rules and/or policies where the violation also involves some aspect of this Student Conduct Code, may subject the student to disciplinary procedures under this Student Conduct Code.

C. Violation of Law and UH Discipline

1. UH disciplinary proceedings may be instituted against a student charged with conduct that potentially violates both the criminal law and this Student Conduct Code (that is, if both possible violations result from the same factual situation) without regard to the pendency of civil or criminal litigation in court or criminal arrest and prosecution. Proceedings under this Student Conduct Code may be carried out prior to, simultaneously with, or following civil or criminal proceedings at the discretion of the Senior Student Affairs Officer. Determinations made or sanctions imposed under this Student Conduct Code shall not be subject to change because criminal charges arising out of the same facts giving rise to violation of University rules were dismissed, reduced, or resolved in favor of or against the criminal law defendant.
2. When a student is charged by federal, state, or local authorities with a violation of law, UH will not request or agree to special consideration for that individual because of their status as a student. If the alleged offense is also being processed under the Student Conduct Code, UH may advise off-campus authorities of the existence of the Student Conduct Code and of how such matters are typically handled within the UH community. UH may cooperate with law enforcement and other agencies in the enforcement of criminal law on campus and in the conditions imposed by criminal courts for the rehabilitation of student violators (provided that the conditions do not conflict with campus rules or sanctions). In the event of law enforcement and/or government agency enforcement of laws and regulations, UH may, as appropriate, adjust any Student Conduct Code investigation and/or proceeding so as not to interfere or unduly prejudice the law enforcement process. Individual students and other members of the UH community, acting in their personal capacities, remain free to interact with governmental representatives as they deem appropriate.

V. Delegation of Authority

Authority to hear and decide on whether or not alleged violations of the Student Conduct Code have occurred as well as to determine subsequent disciplinary sanctions is delegated to senior student affairs officers, student conduct officers, or student conduct boards as described in this policy.

Dangerous weapons include but are not limited to firearms, ammunition, spear guns, knives, explosives, and dangerous substances. Any person found in violation may be subject to the provisions of state law, University policy, and the Student Conduct Code.

G. Retaliation
1. The University of Hawai‘i system prohibits and will not tolerate retaliation. Retaliation is defined as adverse actions that would dissuade a reasonable person from making or supporting a charge of workplace violence or hostile treatment against any individual because he or she engaged in any of the following activities:
   a. sought advice or assistance about workplace violence;
   b. reported a workplace violence incident;
   c. opposed workplace violence or filed an informal or formal complaint; or

3. Retaliation can be filed as a separate complaint or as part of a workplace violence complaint and will be investigated accordingly.

4. Persons who commit retaliation in violation of this policy are subject to appropriate disciplinary action in accordance with the appropriate collective bargaining agreement, if applicable.

H. Responsibilities
1. The Office of Human Resources shall:
   a. Develop and maintain, in consultation with campus representatives and the Offices of Student Affairs, Academic Affairs, Legal Affairs, University Relations and Campus Security, the University’s non-violence in the workplace policy and procedures.

c. Advise colleges/campuses regarding the Statewide and University policies on non-violence as it relates to labor relations, workers’ compensation, etc.

2. The appropriate campus security departments/programs shall be responsible for maintaining accurate incident reports.

I. Prevention
   1. The process of preventing workplace violence involves:
      a. Careful screening of employees, beginning with responsible care at the time of hiring. Finally, the senior executive must promote awareness to enhance the student’s, faculty and staff’s individual responsibilities for the prevention of workplace violence.
      a. Membership on the CCMT should include those needed to provide immediate assistance to the campus in the event of a workplace violence incident:

Effective Date: October 2014
Prior Dates Amended: September 1990
Responsible Office: Vice President for Administration
Governing Board of Regents Policy: N/A
Review Date: August 2019

I. Purpose

The purpose of this policy is to establish the University's values and its expectations of all faculty, staff, and students regarding substance abuse and, in particular, the use of illegal drugs; and to comply with the Drug-Free Schools and Communities Act Amendments of 1989, and the Drug Free Workplace Act of 1988, as may be amended from time to time, which set forth requirements for continued receipt of federal funding.

II. Definitions

A. “Addiction” means a compulsive physiological need for an illegal drug;

"Illegal drugs" means a controlled substance in schedules I through V of section 202 of the Controlled Substance Act (21 U.S.C. 812), and any other illegal or controlled substance as defined in chapter 329, Hawai‘i Revised Statutes, provided the term "illegal drugs" shall not mean the use of a controlled substance pursuant to a valid prescription or other uses authorized by law; and
I. "Substance abuse" means the misuse of a substance or the use of a substance to an extent deemed deleterious or detrimental to the user, to others, or to society.
III. Executive Policy

The University can best achieve its mission by creating a supportive working environment in which individuals encourage one another to pursue excellence in their professional and personal lives. Students, faculty and staff share a responsibility to help one another by learning to recognize the signs and behaviors associated with substance abuse and addiction, and by encouraging those with such problems to seek appropriate help and rehabilitation. Once an individual has undergone treatment for substance abuse or addiction, the University should extend support and encouragement during the recovery phase.

The University expects lawful behavior by students, faculty and staff during their presence on University premises and at University events. Within the constraints of its mission, the University encourages cooperation with law enforcement agencies in enforcing statutes regarding the use of illegal drugs.

Substance abuse interferes with the physiological and abstract processes through which mental activity occurs and with social behaviors required for research and learning. Consequently, the University expects that students, faculty and staff will carry out their responsibilities free of any substance abuse.

A. University Expectations Regarding Substance and Alcohol Abuse and Illegal Drugs
   1. Students, faculty and staff are expected to perform their duties free of intoxication by any illegal drugs or alcohol.
   2. Students, faculty and staff are expected to observe laws regulating illegal drugs and may be subject to investigation and/or prosecution for illegal drug use.
   3. Faculty, staff, and students are not permitted to manufacture, distribute, possess, use, dispense or be under the influence of illegal drugs as prohibited by state and federal law, at University-sponsored or approved events or on University property or in buildings used by the University for education, research and recreational programs.
   4. Students, faculty and staff are expected to share responsibility for the well-being of each other, for recognizing the behaviors associated with substance abuse, and for encouraging those in need to seek assistance or treatment.
   5. The University community should expect support services and supportive attitudes by its members for students, faculty and staff reentering the community after treatment for or during recovery from substance abuse.
   6. The University expects its students, faculty and staff to share responsibility for preventing substance abuse and addiction and for providing education about the subject through studies, research and special programming.
   7. The University should expect to assume a leadership role in the acquisition and transmission of knowledge related to substance abuse and addiction, and to collaborate with the broader community in activities related to prevention of drug abuse including training of professional workers in this area.
   8. The University recognizes that substance abuse is a complex problem that is not easily resolved solely by personal effort and may require professional assistance and/or treatment. Students, faculty and staff members with substance abuse problems are encouraged to take advantage of available diagnostic, referral, counseling and prevention services. The University will not excuse misconduct by employees and students whose judgment is impaired due to substance abuse.

B. Applicability
   This policy applies to all members of the university community including students, faculty, and staff.
C. Drug-Free Schools and Communities Act Amendments of 1989
Each campus shall be responsible for a biennial review of its program to determine its effectiveness and implement changes if they are needed; and to ensure that the disciplinary sanctions are consistently enforced. Each campus shall also be responsible for preparing and submitting any reports required by the Act.

D. Americans with Disabilities Act Amendments Act of 2008 (ADAAA)
Chancellors and vice presidents are responsible for addressing drug, alcohol, or substance abuse issues in accordance with the provisions of the ADAAA by affording employees the protections provided by the Act.

E. Illegal Drugs and Substance and Alcohol Abuse Prevention Program
The Office of Human Resources, in consultation with the Associate Vice President for Student Affairs, is responsible for updating and distributing the annual notification to all employees. The Office of the Executive Vice President for Academic Affairs, through the Associate Vice President for Student Affairs, is responsible for distributing the annual notification to all students. Such notification shall be in compliance with the provisions of the Drug-Free Schools and Communities Act Amendments of 1989, and any subsequent amendments. Chancellors and vice presidents shall assist with notification to employees and students when needed. The annual notice shall include:

1. Standards of conduct that clearly prohibit at a minimum the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities;
2. A description of the applicable legal sanctions under local, State, or federal law for the unlawful possession or distribution of illicit drugs and alcohol;
3. A description of the health risks associated with the use of illicit drugs and the abuse of alcohol;
4. A description of any drug or alcohol counseling, treatment, or rehabilitation or re-entry programs that are available to employees or students; and
5. A statement concerning disciplinary sanctions which will be imposed for violations of the standard of conduct required in paragraph 1 in accordance with the applicable collective bargaining agreement or Student Conduct Code.

F. In accordance with the requirements of the Drug Free Workplace Act of 1988, the Vice President for Research and Innovation, in cooperation with the Office of Human Resources and the chancellors, shall see to it that:

1. All employees engaged in the performance of a federal contract or grant are provided a copy of this policy;
2. All such employees agree, as a condition of employment, to abide by this policy and further to notify the University within five days of any conviction for a criminal drug statute offense occurring in the workplace;
3. The University shall inform the federal agency making the procurement or grant of all such convictions within 10 days of learning of same; and

Within thirty days after receiving notice from an employee of a conviction under subparagraph F.2. above, the University shall (a) take appropriate personnel action against such employee, up to and including termination; or (b) require such employee to satisfactorily participate in a drug abuse or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency.

G. General Provisions
1. Substance abuse or the use of illegal drugs shall not provide an excuse for work related performance that is deemed unsatisfactory.
2. Consistent with its mission, the University will cooperate with law enforcement agencies responsible for enforcing statutes related to the use of illegal drugs.
3. The University actively encourages employees and students who are engaged in substance abuse to seek appropriate help and treatment. Employees/students who undergo such treatment will be provided with a positive and supportive work/learning environment.
4. As opportunities present themselves, appropriate units of the University are called upon to collaborate with the community-at-large on ways that the resources of the University may be used to assist in addressing substance and alcohol abuse problems outside the University.

I. Purpose

The University of Hawai‘i is committed to maintaining and promoting safe and respectful campus environments that are free from sex discrimination and gender-based violence. This includes:

- Sex discrimination;
- Sexual harassment;
- Gender-based harassment, including harassment based on actual or perceived sex, gender, sexual orientation, gender identity, or gender expression;
- Sexual exploitation;
- Sexual assault;
- Domestic violence;
- Dating violence; and
- Stalking.

This policy and procedure (the “Policy”) establishes an integrated and consistent approach to preventing, reporting, and promptly responding to these forms of sex discrimination and gender-based violence across all campuses and centers at the University of Hawai‘i.¹

II. Policy

Any person believing that they have been subjected to sex discrimination; sexual harassment; gender-based harassment, including harassment based on actual or perceived sex, gender, sexual orientation, gender identity, or gender expression; sexual exploitation; sexual assault; domestic violence; dating violence; or stalking should report the prohibited behavior immediately to the respective campus Title IX Coordinator, who will respond timely and appropriately.

¹ As set forth in Title IX of the Education Amendment of 1972, relevant sections of the Violence Against Women Reauthorization Act of 2013, Title VII of the Civil Rights Act of 1964, and Hawai‘i laws that prohibit discrimination on the basis of sex, sexual orientation, and gender identity.
A. Scope
This Policy governs the conduct of all University students, employees, and third parties that occur:
1. On University property;
2. Outside of University property if:
   a. the conduct was in connection with a University-sponsored program or activity; or
   b. the conduct may have a continuing adverse effect or could create a hostile environment on campus.
In circumstances involving third parties or conduct that occurred outside of a University-sponsored program or activity, the University will decide whether this Policy applies to a reported incident or complaint on a case-by-case basis. The Title IX Coordinator will document the rationale for applying or declining to apply this Policy.

Any use of the University’s computing and network resources from campus property or a remote location, including but not limited to accessing email accounts, will be deemed to have occurred within the scope of this Policy.

B. Prohibited Behavior
The University prohibits the following:
1. Sex Discrimination
   Sex discrimination is any unlawful distinction, preference, or detriment to an individual as compared to others that is based on an individual’s sex or gender and is sufficiently serious to unreasonably interfere with or limit:
   a. A student’s or admission applicant’s ability to participate in, access, or benefit from educational programs, services, or activities (e.g. admission, academic standing, grades, assignment, campus housing);
   b. An employee’s or applicant for employment’s access to employment or conditions and benefits of employment (e.g. hiring, advancement, assignment);
   c. An authorized volunteer’s ability to participate in a volunteer activity; or
   d. A guest’s or visitor’s ability to participate in, access, or benefit from the University’s programs.
2. Sexual Harassment
   Sexual Harassment is unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:
   a. Submission to or rejection of the conduct is either an explicit or implicit term or condition of an individual’s employment, education, or participation in a University program, activity, or service;
   b. Submission to or rejection of the conduct by an individual is used as a basis in decisions affecting that individual’s employment, education, or participation in a University program, activity, or service; or
   c. When such conduct is unwelcome to the person to whom it is directed or to others directly aware of it, and when such conduct is: i. Severe, persistent, or pervasive; and ii. Has the purpose or effect of either:
      (1) Unreasonably interfering with the employee’s work performance or student’s academic performance; or
      (2) Creating an intimidating, hostile, or offensive work or educational environment.
In determining whether sexual harassment resulted in a sexually hostile environment, the University will consider the conduct from both an objective and subjective standpoint. That is, the Reporting Party must view the conduct as offensive, and a reasonable person with the same fundamental characteristics as the Reporting Party (e.g., actual or perceived sex, age, race, gender, sexual orientation, gender identity, or gender expression) must also view the conduct as offensive.
The following are examples of behavior that may constitute hostile environment sexual harassment if unwelcome and persistent, pervasive, or severe:

- Sexually offensive jokes or ridicule of a person’s sexuality, sexual orientation or gender identity
- Remarks of a sexual nature about a person’s clothing or body
- Remarks about sexual activity or speculations about previous sexual experiences
- Unnecessary and unwanted touching, patting, hugging, or brushing against a person’s clothing or body
- Pressure for sexual activity, an element of which may be nonverbal conduct, such as repeated and unwanted staring or sexually suggestive gestures
- Displays of offensive objects or pictures, including the use of electronic technology to send derogatory, demeaning, threatening, or hostile materials based on sex
- Requests for sexual favors accompanied by direct or implied rewards or threats
- Taking, sending, or sharing photos, videos, or audio recordings of sexual activity without the person’s consent, regardless of whether the sexual activity itself was consensual
- Intimidation, threats of harm, or actual assaults against a person based on their actual or perceived sex, gender, sexual orientation, gender identity, or gender expression

The above list of examples is not all-inclusive; in addition, each situation must be considered in light of the specific facts and circumstances to determine if there has been a violation of this Policy. The determination as to whether behavior is sexual harassment will take into account the totality of the circumstances, including the nature of the behavior and the context in which it occurred. Harassing conduct often involves a pattern of offensive behavior. However, a serious incident, such as sexual assault, even if isolated, can be sufficient to establish a hostile environment and a violation of this Policy. Factors considered include the severity or pervasiveness of the conduct; the degree to which the conduct affected the student’s education or the employee’s work environment; the type and duration of the conduct; and the identity of and relationship between the respondent and the student or employee.

3. Gender-Based Harassment

Gender-based harassment is a form of sex-based harassment and refers to unwelcome conduct based on an individual’s actual or perceived sex. Gender-based harassment involves verbal, physical, or electronic conduct based on sex, gender, sexual orientation, or sex-stereotyping that creates a hostile, intimidating or abusive environment, even if those acts do not involve conduct of a sexual nature. Gender-based harassment also includes harassment for exhibiting what is perceived as a stereotypical characteristic for one’s sex or for failing to conform to stereotypical notions of masculinity and femininity, regardless of the actual or perceived sex, gender, sexual orientation, gender identity, or gender expression of the individuals involved.

4. Sexual Exploitation

Sexual Exploitation is violating the sexual privacy of another, or taking unjust or abusive sexual advantage of another, without Consent (as defined in Section II.C.2. below), and when such behavior does not otherwise constitute Sexual Assault.

Sexual Exploitation includes but is not limited to:

- Photographing or taping someone involved in sexual activity, sexual intercourse/penetration, or in a state of undress, without their knowledge or Consent
- Sharing photographs or video/audio of someone involved in sexual activity, intercourse/penetration, or in a state of undress, without their knowledge or Consent
- Watching someone currently involved in sexual activity without their knowledge or Consent
5. Sexual Assault
Sexual Assault is the act of committing unwanted physical contact of a sexual nature with an intimate body part, whether by an acquaintance or by a stranger. Intimate body parts include breasts, buttocks, groin, or genitals, or mouth. Such contact is unwanted when it occurs:
   a. Without the Consent (as defined in Section II.C.2.) of at least one of the individuals; or
   b. When at least one of the individuals is incapacitated or otherwise incapable of giving Consent (as defined in Section II.C.2. below)

6. Domestic Violence
Domestic Violence is physical, sexual, emotional, financial, or psychological abuse or threats of abuse against another person who is a family or household member.

7. Dating Violence
Dating violence is physical, sexual, emotional, financial, or psychological abuse or threats of abuse against another person who is or has been in a social relationship of a romantic or intimate nature with the alleged abuser; and where the existence of such a relationship shall be determined based on a consideration of the following factors:
   a. The length of the relationship;
   b. The type of relationship; and
   c. The frequency of interaction between the persons involved in the relationship.
Domestic Violence or Dating Violence, as defined above, may include but is not limited to:
   • Physical or emotional abuse;
   • Controlling/possessive behavior;
   • Changing your normal behavior, like making you have to call your friends in secret;
   • Preventing you from hanging out with your family.

8. Stalking
Stalking is two or more acts of unwanted and harassing behavior, directed at a specific person that is sufficiently serious to cause physical, emotional, or psychological fear or to create a hostile, intimidating or abusive environment. The conduct must be both objectively and subjectively perceived as hostile, intimidating or abusive. That is, the Reporting Party must view the conduct as hostile, intimidating or abusive, and a reasonable person with the same fundamental characteristics as the Reporting Party (e.g., actual or perceived sex, age, race, gender, sexual orientation, gender identity, or gender expression) must also view the conduct as hostile, intimidating or abusive if they were in similar circumstances.

Stalking may occur:
   • In person or through mail, electronic mail, text messaging, instant messaging, telephone, facsimile, social websites (Facebook, Twitter, MySpace, Tumblr, Instagram, etc.), or other internet communications.
   • For several days or for many years.

---

2 For the purposes of this Policy, “household member” is a cohabitant who is or was a spouse or intimate partner. See Federal Register, Vol. 79, No 202, October 20, 2014, p. 62757.
9. Retaliation
Retaliation is adverse actions taken against a person because of his/her good faith participation in the following types of protected activities:
   a. Seeking advice or assistance about conduct prohibited under this Policy;
   b. Opposing or filing an informal or formal complaint against conduct reasonably believed to be prohibited under this Policy; or
   c. Testifying, assisting, or participating in an investigation or other proceeding related to a complaint of conduct prohibited under this Policy.

Adverse actions are actions that would dissuade a reasonable person from making or supporting a complaint under this Policy.

Examples of adverse actions that might constitute retaliation include a significant change in one’s status, such as suspension, unsatisfactory or unfair evaluations, unfair grades, unfair assignments, firing, failing to promote, reassignment with significantly different responsibility or a decision causing a significant change in benefits, direct or implied threats, coercion, harassment, intimidation, or encouragement of others to retaliate.

The University prohibits and will not tolerate retaliation. A retaliation complaint, allegation, or report will be reviewed as a separate offense under this Policy; that is, a person can be found responsible for retaliation even if not found to be responsible for the underlying reported sex discrimination or gender-based violence. All complaints, allegations or reports of retaliation under this Policy should be made and processed by the same procedures set forth in this Policy.

C. Related Definitions

1. Sexual Contact
Sexual contact is intentional touching or penetration of another person’s clothed or unclothed body, including, but not limited to, the mouth, neck, buttocks, anus, genitalia, or breast, by another with any part of the body or any object in a sexual manner. Sexual contact also includes causing another person to touch their own or another body in the manner described above.

2. Consent
Consent is affirmative, conscious, and voluntary agreement to engage in agreed upon forms of sexual contact.

A person cannot give Consent if the person is under the age of consent for sexual contact\(^3\), the person is developmentally or intellectually disabled, or the person is mentally incapacitated or physically helpless.

Lack of protest or resistance cannot be interpreted as Consent. Silence cannot be interpreted as Consent. Consent must be ongoing throughout any sexual contact and can be revoked at any time.

The existence of a dating relationship, domestic partnership or marriage between the persons involved, or the existence of past sexual relations between the persons involved, is never by itself an indicator of Consent.

---

\(^3\) In Hawai‘i, the age of consent is sixteen (16) generally, or the age of consent is between fourteen (14) and fifteen (15) when either the other person is less than (5) years older or when the other person is legally married to the person between the ages of fourteen (14) and fifteen (15). See Haw. Rev. Stat. § 707-732.
3. Incapacitation or Incapacitated
Incapacitation is a mental or physical state in which a person lacks the ability to understand
the consequences of their actions and, therefore, cannot make a rational, reasonable decision.
An individual who is incapacitated is unable to give Consent to sexual contact. States of
incapacitation includes sleep, unconsciousness, intermittent consciousness, or any other state
where the individual is unaware that sexual contact is occurring. Incapacitation may also
exist because of a mental or developmental disability that impairs the ability to Consent to
sexual contact.

Alcohol or drug use is one of the prime causes of incapacitation. Because the impact of
alcohol or other drugs varies from person to person, evaluating whether an individual is
incapacitated, and therefore unable to give Consent, requires an assessment of whether the
consumption of alcohol or other drugs has rendered the individual physically helpless or
substantially incapable of:
   a. Making decisions about the potential consequences of sexual contact;
   b. Apprising the nature of one’s own conduct;
   c. Communicating consent to sexual contact; or
   d. Communicating unwillingness to engage in sexual contact.
An individual’s intoxication is never an excuse for or a defense to committing sexual or
gender-based harassment, sexual assault, sexual exploitation, or sexual violence.

D. Standard of Review - Preponderance of the Evidence
In determining whether alleged behavior violates this Policy, the University will consider the
totality of the facts and circumstances involved in the incident, including the nature of the
alleged behavior and the context in which it occurred, and determine whether it is more likely
than not that the alleged prohibited behavior occurred.

E. Institutional Roles and Resources
1. Responsible Employees
   Responsible Employees are defined generally as employees who have authority to redress
   prohibited behavior under this Policy, employees who have a duty to report prohibited
   behavior to the Title IX Coordinator, and any employee who a student could reasonably
   believe has authority to redress prohibited behavior under this Policy.

   Responsible Employees include Title IX Coordinators and Deputies, Title IX offices, the
   University of Hawai‘i Office of Institutional Equity, University of Hawai‘i Community
   College System Office of Compliance & Title IX, University Executive and Managerial
   employees, faculty members, and campus security/public safety departments.

   For a link to the University’s Guide For Responsible Employees, go to:
   http://www.hawaii.edu/titleix/responsible-employees/.

   Responsible Employees will safeguard an individual’s privacy, but are required by the
   University to promptly share all relevant known details about alleged prohibited behavior
   with the Title IX Coordinator, within three (3) calendar days of receiving notice. Relevant
details include the names of the parties and witnesses, a description of the incident(s)
including any evidence shared, and the date, time and location of the incident(s). To ensure a
prompt and appropriate response, Reporting Parties are encouraged to contact the Title IX
Coordinator directly.

   Confidential Resources, as defined in Section II.E.4, are not considered to be Responsible
   Employees.
2. All Other University Employees
   All employees of the University (who are not designated as Confidential Resources) are
   encouraged to report alleged prohibited behavior to a Title IX Coordinator.

3. University of Hawai‘i Office of Institutional Equity
   The University of Hawai‘i Office of Institutional Equity is responsible for overseeing a
   centralized program for preventing, reporting, and responding to sex-based discrimination
   and gender-based violence across all campuses and centers at the University of Hawai‘i.

   The Office of Institutional Equity is not a Confidential Resource.

   The Office of Institutional Equity shall, among other things:
   • Ensure this Policy complies with Title IX and VAWA, in addition to related State and
     federal laws;
   • Serve as the University’s technical expert on Title IX and VAWA to support the
     campuses’ Title IX programs and compliance initiatives;
   • Monitor and support the responses by campuses to reports of alleged prohibited behavior;
   • Conduct formal investigations on alleged prohibited behavior, when other resources are
     not available;
   • Develop the training content for this Policy;
   • Work with the EEO/AA Coordinators to ensure this Policy complies with Title VII; and
   • Coordinate regularly with all campus Title IX coordinators to support compliance with
     this Policy and identify situations or allegations that impact multiple campuses.

4. University of Hawai‘i Community College System Office of Compliance & Title IX (“CC
   System Compliance Office”) The CC System Compliance Office provides direct support and
   assistance to the Title IX Coordinators and their teams at the seven University community
   colleges. The OIE and the CC System Compliance Office shall confer regularly to ensure a
   centralized approach across all campuses. The CC System Compliance Office is not a
   Confidential Resource.

5. Title IX Coordinator
   Each campus shall have a designated Title IX Coordinator who is responsible for complying
   with and carrying out the responsibilities under this Policy. These responsibilities include,
   but are not limited to:
   • Serving as the primary and central repository for all reports, allegations and/or
     complaints of violations of this Policy on their campus;
   • Promptly responding to all reports, allegations and/or complaints of prohibited behavior
     under this Policy;
   • Collecting, monitoring, and evaluating data and/or indicators of reports or instances of
     prohibited behavior under this Policy for purposes of identifying and addressing any
     patterns or systemic problems;
   • Providing data and/or indicators of reports or instances of prohibited behavior under this
     Policy to the Office of Institutional Equity on a monthly basis;
   • Providing access to on and off campus support services and programs;
   • Ensuring prevention and awareness programs are conducted in an effective and
     responsible manner;
   • Serving as the primary point of contact with all students, educating and informing them
     of their rights under this Policy and any support services and programs;
   • Serving as the primary liaison between their campus and community resources and law
     enforcement;
   • Maintaining an updated list of all Confidential Resources on their respective campus;
   • Coordinating and implementing any interim measures imposed under this Policy; and
• Conducting formal investigations on alleged prohibited behavior, when resources are available.

The Title IX Coordinator may designate Deputy Title IX Coordinators to assist with their responsibilities, with notice to the President or Chancellor and Office of Institutional Equity.

When an allegation may impact multiple University of Hawai‘i campuses, the Title IX Coordinator also has the responsibility to inform the Title IX Coordinator at any other relevant University of Hawai‘i campus and the Director of the Office of Institutional Equity.

6. Confidential Resources for Students

Confidential Resources are where students can seek assistance related to this Policy in a confidential manner. Going to a Confidential Resource will not put the University on notice of a specific allegation under this Policy.

All campuses should have Confidential Resources for students who would like to share information. Any Confidential Resource must be registered with and sanctioned by the respective Title IX Coordinator and be clearly identified as such. Confidential Resources shall provide the Title IX Coordinator with non-personally identifiable information, in the form of aggregate data for each year, and be responsible for appropriate recordkeeping.

Students who wish to seek University information or support in a confidential manner may contact a Confidential Resource. Confidential Resources will not share information about or received from a student, without the student’s express written permission, unless imminent threat to life or of bodily injury exists, or there is a legal obligation to reveal such information.

7. Advocacy Resources for Students

Advocacy Resources are where students can seek information, options and specific support about their rights and resources under this Policy. All campuses should have Advocacy Resources and should identify whether they are also designated as a Confidential Resource.

Any Advocacy Resource must be registered and sanctioned by the respective Title IX Coordinator and be clearly identified as such.

8. Employee Assistance Program (“EAP”)

The EAP provides confidential, short-term, professional counseling services to employees who may be experiencing personal problems that are affecting job performance.

III. Reporting and Investigation Procedures

A. Parties

1. Reporting Party

Reporting Party is a person who alleges being a victim of prohibited behavior under this Policy.

In a University initiated investigation, the Reporting Party is the University.

2. Responding Party

Responding Party is a person against whom an allegation of prohibited behavior is directed.

B. Notice and Report of Prohibited Behavior

1. Reporting to the University

All complaints, allegations, and reports of prohibited behavior under this Policy (“Complaints”) should be made to a campus Title IX Coordinator.
These personnel will help find available resources and services, explain all reporting options, and appropriately respond to the behavior of concern, including taking steps to prevent recurrence of any sexual harassment and to correct its discriminatory effects on the complainant and others, if appropriate. All instances of retaliation should be reported and addressed in the same manner.

Upon receiving notice of a Complaint, the campus Title IX Coordinator shall promptly assess the situation and take any of the following actions:

- Except as set forth in the bullets below, if the Title IX Coordinator determines that the Complaint would, if substantiated, constitute a violation of this Policy, the Title IX Coordinator will determine appropriate interim measures and initiate an investigation, in accordance with this Policy.
- If the Title IX Coordinator determines that the Complaint is made by a University employee against another University employee, then such matter will be transferred to the EEO/AA Coordinator. This determination and transfer shall be made in writing by the Title IX Coordinator.
- If the Title IX Coordinator determines that the Complaint, even if substantiated, would not rise to the level of a Policy violation, the Title IX Coordinator will dismiss the Complaint but may recommend follow-up actions to be taken, as appropriate.
- If the Title IX Coordinator determines that the Complaint is outside the scope of this Policy, the Title IX Coordinator may refer the Complaint to another office for review under the appropriate policy and procedure, if any.

The Title IX Coordinator may investigate allegations of violations of this Policy even absent the filing of a formal Complaint, or if a Complaint has been withdrawn.

2. Multiple Campuses
When a Complaint may impact multiple University of Hawai‘i campuses, the Title IX Coordinator who receives the Complaint has the responsibility of informing all other Title IX Coordinators whose campuses may be impacted and the Office of Institutional Equity. The Director of the Office of Institutional Equity shall, based on the circumstances of the Complaint, assign a lead Title IX Coordinator, who shall be charged with coordinating the University’s response to the Complaint.

3. University Initiated Investigation
Under certain circumstances, the University may initiate an investigation even absent a report or request to investigate, or if the report has been withdrawn. This determination shall be made by the Title IX Coordinator, in consultation with the Director of OIE.

In making the determination to conduct a University Initiated Investigation, the University will consider the frequency, nature, or severity of the allegations, the existence of a withdrawn report or Reporting Party’s refusal to participate in the investigation, the age of the parties involved, whether the allegations evidence violence, threat, pattern, or predation, the existence of prior or other similar complaints against the Responding Party, and the existence of actual or threatened use of a weapon.

4. Confidentiality Limitations
While the University recognizes the importance of privacy and confidentiality in these matters, only Confidential Resources can maintain confidentiality.

---

4 If the matter is transferred to the EEO/AA Coordinator, this Policy shall still be applicable, and any reference to the Title IX Coordinator in the Reporting and Investigation Procedures shall also apply to the EEO/AA Coordinator.
While the University will uphold the privacy of all parties to the extent practicable, once the University has notice of alleged prohibited behavior, the University must balance requests for confidentiality against its obligation to take timely and appropriate action.

5. Timely Reporting
Individuals are strongly encouraged to report Prohibited Conduct as soon as possible since the passage of time may limit the University’s ability to conduct an effective investigation and/or take effective action. While there is no statute of limitations for violations nor any formal deadline for reporting, long delays in reporting, particularly after 180 days, may result in the University being unable to investigate and act as would be possible with a timely report. Nonetheless, reports are encouraged whenever the Reporting Party feels ready, and the University will strive to provide support and other response as appropriate.

6. Legal Options Outside of the University
The University reporting process is separate and distinct from the criminal reporting process. Reports made to the University regarding prohibited behavior will not necessarily trigger a report to law enforcement. Should an individual wish to report allegations to law enforcement or initiate civil proceedings, they may do so at any time, and the University will not interfere with any such processes.

Proceedings under this Policy may be carried out prior to, simultaneously with, or following civil or criminal proceedings off campus. Neither a decision by law enforcement regarding prosecution nor the outcome of any criminal proceeding will be considered determinative of whether a violation of this Policy has occurred.

C. Interim Measures
1. Definition
Interim Measures are services, adjustments, or other assistance that the University puts in place on a temporary basis after receiving notice of a Complaint and before any outcomes - investigatory, disciplinary, or remedial - have been determined.

These measures may be instituted to protect all parties during the investigation process, including appeals. The University may also provide Interim Measures regardless of whether a formal disciplinary action occurs.

Interim Measures are initiated based on information gathered following a Complaint and are not intended to be permanent resolutions; hence they may be amended or withdrawn as additional information is gathered.

Failure to comply with the terms of Interim Measures may be considered a separate violation of this Policy, which may result in a separate investigation, findings, and determination.

2. Procedure
Title IX Coordinator shall:
   a. Conduct a safety assessment;
   b. Provide all parties with a written explanation of Interim Measures. The appropriateness of any Interim Measure includes consideration of the impact to either party’s education and consideration of whether either party’s continuance may disrupt the operations of the University;
   c. Document any Interim Measures implemented, any requests for Interim Measures, the rationale for accepting or rejecting a request for Interim Measures, and any other information related to implementing Interim Measures; and
d. Ensure the implementation of appropriate Interim Measures and coordinate the University's response with the appropriate offices on campus; for included employees\(^5\), the University shall ensure Interim Measures are taken in accordance with the applicable collective bargaining agreement.

D. Informal Resolution Agreement or Voluntary Agreement

The Title IX Coordinator shall attempt to resolve any Complaint at the earliest stage possible with the voluntary cooperation of all parties involved. The process can be terminated by either party at any time.

Means for resolution shall be flexible and encompass a full range of possible appropriate outcomes. Options include discussions with the parties, making recommendations for resolution, and conducting follow-up after a period of time to assure that the resolution has been implemented effectively.

Mediation is inappropriate when violent behavior is involved.

Steps taken to encourage agreements shall be documented.

All voluntarily completed agreements shall be affirmed in writing by both parties, as appropriate. A completed agreement will resolve allegations of prohibited behavior, in lieu of findings and discipline under this Policy.

E. Formal Investigation and Resolution

1. Notice of Investigation
   a. A Notice of Investigation shall be issued by a Title IX Coordinator when:
      i. The Title IX Coordinator determines that the Complaint would, if substantiated, constitute a violation of this Policy, and formal proceedings should be initiated; or
      ii. Title IX Coordinator determines a University-initiated investigation is warranted.

2. A Notice of Investigation shall be provided to all parties to the Complaint and provide:
   a. A summary of the allegations;
   b. A copy of this Policy;
   c. A confidentiality statement;
   d. A non-retaliation statement;
   e. An offer for the parties to provide additional information related to the allegations by a specified response deadline; and
   f. The named parties to the Complaint and whether the case is a University-initiated investigation. In rare circumstances, where the identity of the Reporting Party is not integral to the allegations, requests to remain anonymous for University-initiated investigations may be granted at the discretion of the Title IX Coordinator on a case-by-case basis.

3. Fact-Finding Investigation
   The Title IX Coordinator shall transmit the Notice of Investigation to the Investigator(s) to conduct an Investigation. In matters involving claims by a University employee against another University employee, the appropriate University EEO/AA Coordinator shall coordinate the FactFinding Investigation.

\(^5\) “Included employees” are any University employees included under a collective bargaining agreement.
The Investigator(s) will:

a. Interview the Reporting Party, Responding Party, relevant witnesses, and individuals with unique knowledge pertinent to the Notice of Investigation in order to gather and ascertain case facts and circumstances; and

b. Collect all relevant evidence offered by any party or witness including documents, notes, electronic records, photographs, and any other materials relevant to the investigation.

Each party may have a union agent or an advisor of their choice accompany them to any meeting or related proceeding to advise them. The University’s administrative investigatory process is dictated by the University, and therefore:

a. The union agent or advisor cannot speak for the Reporting or Responding Party nor dictate the line or rationale of questioning;

b. Involved parties, e.g., the Reporting Party, Responding Party, or witnesses, will not be allowed to be present during the interviews of others; and

c. Involved parties cannot question or cross-examine others during the investigatory interviews.

The Title IX Coordinator and the EEO/AA Coordinator has the discretion to consolidate multiple complaints into a single investigation if evidence relevant to one incident may also be relevant to others.

The Investigator(s) shall seek to complete the Fact-Finding Report within sixty (60) calendar days of being assigned as an investigator.

4. Dismissal of Report During Investigation

At any point during the investigation, if it is determined there is no reasonable cause to believe the Policy has been violated, the Title IX Coordinator or EEO/AA Coordinator, as applicable, may terminate the investigation and end resolution proceedings by informing the Reporting and Responding Parties of this decision in writing. Either party may appeal the termination of the investigation and resolution proceedings by writing to Title IX Coordinator or EEO/AA Coordinator within seven (7) calendar days of receiving the notice of the termination. Title IX Coordinator or EEO/AA Coordinator shall promptly forward the appeal to the appropriate Decision Maker. The Decision Maker shall seek to issue a written decision on the appeal, which shall be final, within seven (7) calendar days of receiving the appeal.

5. Fact-Finding Report

The Investigator(s) shall submit a Fact-Finding Report to the appropriate Decision Maker containing, at a minimum:

a. A statement on the alleged violations of this Policy under investigation along with relevant sections of the Policy;

b. The Investigator(s)’ summary of statements of the interviewed parties;

c. The Investigator(s)’ summary and inventory of all evidence gathered during the investigation;

d. A presentation of all evidence gathered;

e. Any mitigating circumstances, unique considerations, identified discrepancies or conflict, and/or issues of credibility; and

f. Any other relevant information as appropriate.

6. Outcome Report

The Fact-Finding Report shall be submitted to the appropriate Decision Maker. Upon reviewing the Fact-Finding Report, the Decision Maker may request more information from the Investigator(s).
Once the Decision Maker determines the sufficiency of the Fact-Finding Report, the Decision Maker shall:

a. Determine whether, based on the Preponderance of the Evidence Standard, a violation of this Policy occurred and the basis for this determination;
b. Determine any discipline, if appropriate; and
c. Determine any remedial actions, if appropriate.

The Decision Maker shall seek to make these determinations and draft an Outcome Report within thirty (30) calendar days of receiving the FactFinding Report.

7. Notification Requirements; Limitations on the Disclosure of Discipline

The Reporting and Responding Parties to a Formal Investigation shall receive the Outcome Report, redacted of any personally identifiable information, as appropriate.

The Outcome Report shall contain the cause or no cause finding and rationale.

Remedial Actions that directly relate to both parties shall be shared with both parties.

Generally, discipline shall not be disclosed to the Reporting Party unless the circumstances meet the criteria below.

a. When the Responding Party is a Student
   i. Cases where a student is found to have violated the Policy regarding Sexual Violence
      In this circumstance, both the Reporting Party and Responding Party shall be informed of all discipline imposed that arise from violation of this Policy. The disclosure of discipline may be included in the Outcome Report or in separate letters sent to the Reporting Party and the Responding Party. The University shall not require the Reporting Party to abide by a non-disclosure agreement, in writing or otherwise.
   ii. In cases where a student is found to have violated this Policy but not prohibitions against Sexual Violence
      In this circumstance, the Outcome Report sent to the Reporting Party shall only contain information about the discipline that directly relates to the Reporting Party.

b. When the Responding Party is an Employee
   i. Cases where an employee is found to have violated the Policy regarding Sexual Violence
      In this circumstance, both the Reporting Party and Responding Party shall be informed of all discipline imposed that arise from violation of this Policy. The University shall not require the parties to abide by a nondisclosure agreement, in writing or otherwise. If there is an appeal of a Sexual Violence determination, the Determination of Appeal sent to the Reporting Party and Responding Party shall both contain all discipline imposed.
   ii. When an employee is found to have violated this Policy but not prohibitions against Sexual Violence
      In this circumstance, the Outcome Report sent to the Reporting Party shall not include any information relating to discipline.

---

6 “Sexual Violence” is defined as Sexual Assault, Domestic Violence, Dating Violence or Stalking.
8. Discipline
   a. Employees
      Discipline may be imposed in accordance with the applicable collective bargaining agreements. Possible discipline may include disciplinary action ranging from reprimand to termination.
   b. Students
      Discipline shall be imposed based on the severity of the prohibited behavior, as well as the Responding Party’s past record.

For violations of this Policy, students are subject to several kinds of discipline, as listed:
   i. Warning
      A Warning is a formal written admonition.

      Relevant information remains on a student’s permanent record at the University and may be disclosed in response to requests for which the student has given permission or as otherwise legally required.
   ii. Disciplinary Probation
      Disciplinary probation is a more serious admonition assigned for a definite amount of time. It implies that any future violation, of whatever kind, during that time, may be grounds for suspension, suspension with conditions, or in especially serious cases, expulsion from the University. Disciplinary probation will be taken into account in judging the seriousness of any subsequent infraction even if the probationary period has expired.

      Relevant information remains on a student’s permanent record at the University and may be disclosed in response to requests for which the student has given permission or as otherwise legally required.
   iii. Suspension
      Suspension is removal from membership in, or employment by, the University for a specified period of time.

      Relevant information remains on a student’s permanent record at the University and may be disclosed in response to requests for which the student has given permission or as otherwise legally required.
   iv. Suspension with Conditions
      Suspension with Conditions is removal from membership in, or employment by, the University for at least the period of time specified by the suspension, with the suspension to continue until certain conditions, stipulated by the appropriate body applying this discipline, have been fulfilled.

      These conditions may include, but are not limited to, restitution of damages, formal apology, or counseling.

      Relevant information remains on a student’s permanent record at the University and may be disclosed in response to requests for which the student has given permission or as otherwise legally required.
   v. Withholding of Degree
      In cases involving seniors or graduate students, the University may withhold a student’s degree for a specified period of time. This penalty is imposed instead of suspension at the end of senior year where all other degree requirements have been met.
Relevant information remains on a student’s permanent record at the University and may be disclosed in response to requests for which the student has given permission or as otherwise legally required.

vi. Expulsion/Discharge
Expulsion/Discharge is permanent removal from membership in, or employment by, the University.

Relevant information remains on a student’s permanent record at the University and may be disclosed in response to requests for which the student has given permission or as otherwise legally required.

vii. Censure
Censure can be added to any of the other disciplines listed above, except warning. Censure indicates the University’s desire to underscore the seriousness of the violation and the absence of mitigating circumstances and to convey that seriousness in response to future authorized inquiries about the given individual’s conduct.

9. Remedial Actions and Educational Refresher Programs
When appropriate, remedial actions may be offered to the parties, including no contact orders, management directions to employees, campus security/public safety escort, changes in schedules, restriction of access to space, restrictions of access to resources or activities, changes in assignments, changes in University housing, University housing restrictions, essays or service to a University campus, participation in alcohol or other drug education programs, restorative justice activities, counseling, assistance with academic services, and other assignments that the Decision Maker deems appropriate.

When appropriate, an employee or student may be required to participate in educational refresher programs. Educational refresher programs may be required as part of the University’s goal to prevent the recurrence of inappropriate conduct.

Relevant information remains on an employee’s personnel records in accordance with the applicable collective bargaining agreement.

10. Appeal Process
Both parties have equal rights to an impartial appeal under the Reporting and Investigation Procedures.

For an appeal to be considered timely under this Policy, it must be submitted to the Title IX Coordinator within 7 calendar days after the date the Outcome Report was received by the parties. If either party files an appeal, the Title IX Coordinator will notify the other party in writing of the appeal and the basis. The other party may submit a response to the appeal within 7 calendar days from the date that said party received the appeal.

The appeal shall be in writing, cite the ground(s) for the appeal, and explain why the party believes there are ground(s) for the appeal.

The appeal and the record shall be promptly forwarded to the appropriate Appeal Officer, who will examine the information presented. The Appeal Officer shall then decide within 30 calendar days from the date the Title IX Coordinator received the appeal to:

a. Uphold the original decision;
b. Grant the appeal if the clear weight of the evidence shows the determination was erroneous;
c. Remand the case because of substantial relevant information that was not presented, and reasonably could not have been presented during the investigation; 
d. Remand the case because of procedural unfairness; or
e. Take other appropriate action.

The Appeal Officer shall explain the basis for the determination in writing (Determination of Appeal) and promptly forward the Determination of Appeal to the parties. The notifications in the Determination of Appeal shall be in accordance with Section III.E.7. above.

Nothing in this section shall be construed to prevent an employee’s grievance rights under any applicable collective bargaining agreement.

F. Timeframe and Extensions

The University will seek to complete the investigation and any resulting disciplinary process within the above-referenced timeframes. If a deadline under this Policy falls on a day on the weekend or a state holiday, then the deadline shall be adjusted to the following weekday that is not a state holiday.

There may be circumstances that require the extension of timeframes for good cause. Timeframes may be extended to ensure the integrity and completeness of the investigation, comply with a request by external law enforcement, accommodate the availability of witnesses, or accommodate delays by the parties; or for other legitimate reasons, including the complexity of the investigation and the severity and extent of the alleged prohibited behavior.

The University will notify the Reporting and Responding Parties in writing of any extension of the timeframes for good cause, and the reason for the extension.

G. Participation

Participation in the investigatory process is entirely voluntary and the University recognizes that an individual may be reluctant to participate in the process. However, if an individual chooses to limit their participation, certain circumstances may require the University to continue with an investigation.

If a Responding Party delays or fails to acknowledge requests from University officials for information, delays or fails to provide availability for meetings with University officials, or chooses not to answer any or all questions in an investigation for any reason, the University's administrative investigatory process will continue, findings will be reached with respect to the alleged prohibited behavior, and the University will issue any discipline deemed appropriate. The University will not, however, draw adverse inference purely on the basis of a Responding Party’s silence, non-participation, refusal or lack of acknowledgement.

KAUA‘I COMMUNITY COLLEGE POLICY GUIDELINE NO. 3-03
KCCP 3-03 Animals on Campus
Revised September 1, 2016

1. Scope

This policy shall apply to all persons on Kaua‘i Community College (KCC) property; all land and property owned or leased by KCC, including buildings and structures; and all animals whether they are service, domestic (i.e. pets, comfort animals, and therapy animals), feral, wild, or related to research, teaching or testing.

2. Policy Statement

To provide a safe and clean environment that is conducive for learning to all students, faculty, staff, and visitors, while maintaining reasonable accommodations for persons with disabilities, and preserving academic freedom with respect to the use of vertebrate animals for research, teaching or testing.

3. Rationale

To establish guidelines and procedures regarding admittance of animals at KCC in accordance with all applicable Federal, State and County laws, and all State and University of Hawai‘i policies, rules and procedures. Specifically the following:

B. Hawai‘i Administrative Rules, Title 3 - Department of Accounting and General Services, Subtitle 10 - Central Services Division Public Building Management Services Branch, Chapter 111 - State Facilities and Grounds, Part 14 Animals:

§3-111-14 Animals. All animals are prohibited, except service animals such as, but not limited to guide, signal and service dogs, who are trained to do work or perform tasks for the benefit of an individual with a disability. It shall be the individual's responsibility for all damages caused by the animal, including but not limited to, cleaning up after the dog, and properly disposing of any dropping. [Eff January 5, 1998] (Auth: HRS §26-6) (Imp: HRS §26-6).

4. Definitions

A. Handler - The person responsible for an animal while that animal is on KCC property.
B. Service Animal - "Any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability. Other species of animals, whether wild or domestic, trained or untrained, are not service animals for the purposes of this definition. The work or tasks performed by a service animal must be directly related to the individual's disability. Examples of work or tasks include, but are not limited to, assisting individuals who are blind or have low vision with navigation and other tasks, alerting individuals who are deaf or hard of hearing to the presence of people or sounds, providing non-violent protection or rescue work, pulling a wheelchair, assisting an individual during a seizure, alerting individuals to the presence of allergens, retrieving items such as medicine or the telephone, providing physical support and assistance with balance and stability to individuals with mobility disabilities, and helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors. The crime deterrent effects of an animal's presence and the provision of emotional support, well-being, comfort, or companionship do not constitute work or tasks for the purposes of this definition." (Code of Federal Regulations, title 28, § 35.104)

C. Domestic Animal - Any animal that is bred and raised under human control for many generations and has a pleasant disposition towards humans. This includes all pets and emotional support animals, otherwise referred to as comfort or therapy animals.

D. Feral Animal - Any animal that has escaped from a domestic or captive status and is living more or less as a wild animal.

E. Wild Animal - Any animal that experiences their full life cycle without deliberate human intervention.

5. Procedures

A. Animals

i. Determination

(1) Two inquiries can be made to determine whether an animal qualifies as a service animal when the individual's disability and the work or tasks performed by the service animal are not readily apparent (e.g., individual with a seizure disability using a seizure alert service animal, individual with an autism-related disability using an autism service animal). (Code of Federal Regulations, title 28, § 35.136f)

a. Is this a service animal that is required because of a disability? (Code of Federal Regulations, title 28, § 35.136f)

b. What work or tasks has the animal been trained to perform? (Code of Federal Regulations, title 28, § 35.136f)

(2) The two permissible inquiries may not be made when it is readily apparent that the animal is trained to do work or perform tasks for an individual with a disability (e.g., the dog is observed guiding an individual who is blind or has low vision, pulling a person's...
wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability). *(Code of Federal Regulations, title 28, § 35.136f)*

(3) Documentation shall not be required to prove that an animal has been certified, trained, or licensed as a service animal. *(Code of Federal Regulations, title 28, § 35.136f)*

(4) Student and Employee Accommodations for Service Animals

a. Students

i. Students may notify the Disability Services Office that they require the assistance of service animals.

ii. Upon notification by a student, the Disability Services Office shall notify Policy Officials and affected instructors in writing of the student's need for a service animal.

ii. The Human Resources Office shall notify Policy Officials and affected supervisor in writing of all service animal accommodations.

ii. Responsibilities

(1) "A service animal shall be under the control of its handler. A service animal shall have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether, or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means)." *(Code of Federal Regulations, title 28, § 35.136d)*

(2) The handler shall ensure that the service animal is collared with a current County of Kauai dog license tag. *(Kauai County Code, title 8, §22, article 10)*

(3) The handler shall maintain appropriate hygiene and cleanliness of a service animal to control odor, shedding, and fleas.

(4) The handler shall ensure that the service animal shows appropriate behavior, including full socialization, good temperament, and is not disruptive on KCC property.
(5) The handler shall ensure that the service animal eliminates its waste in an appropriate area, and that the waste is cleaned-up and properly disposed.

iii. Admittance

(1) Service animals shall be allowed to accompany persons with disabilities if they are:

a. Students and members of the general public who are conducting business on campus;

b. employees who have received a service animal accommodation from the Human Resources Office; or

(2) Service animals shall be allowed in all areas where the person would otherwise be allowed, unless:

a. the animal is out of control and its handler does not take effective action to control it;

b. the animal is not housebroken (i.e., trained so that, absent illness or accident, the animal controls its waste elimination); or

c. the animal poses a direct threat to the health or safety of others that cannot be eliminated or reduced to an acceptable level by a reasonable modification to other policies, practices and procedures. (Code of Federal Regulations, title 28, § 35.136b)

i. A determination that an animal poses a direct threat must be based on an individualized assessment of the specific animal's actual conduct - not on fears, stereotypes or generalizations. (Code of Federal Regulations, title 28, § 35 Appendix A)

(3) When there is a legitimate reason to ask that a service animal be removed, KCC shall offer the person with the disability the opportunity to conduct their business at KCC without the animal's presence. (Code of Federal Regulations, title 28, § 35.136c)

B. Domestic Animals

i. Determination

(1) Unless determined to be a service animal, for purposes of this policy, all other domesticated animals shall be considered a domestic animal. This includes all pets and emotional support animals, otherwise referred to as comfort or therapy animals.
ii. Admittance

(1) Domestic animals are prohibited in accordance with Hawai‘i Administrative Rules, §3-111-14 Animals.

(2) The most common feral or wild animals found on KCC property are pigs, cats, chickens, and other birds.

ii. Admittance

(1) Feral or wild animals may pose a health and safety hazard to KCC due to their untamed and uncontrollable nature, and as such any activity that encourages or promotes the presence of feral and wild animals on KCC property is strictly prohibited. The prohibited activities include but are not limited to feeding, sheltering, or abandoning feral or wild animals.
